ASTIGMATISM.

What it is, and How Corrected.

Astigmatism or Irregular Vision is one of the most common of all the refractive errors. It is due to the irregular curvature of the eye known as the cornea. Of course no instrument is sufficient to correct it, but in the hands of a thoroughly efficient and competent eye specialist the ophthalmometer reveals the exact condition of the eye in a way that nothing else can. If your eyes need attention have DR. J. T. JOHNSON to put them under this wonderful instrument. Office hours 8:30 to 12:30; 2 to 6. 302 1/2 S. Elm St.

## NOTES FROM HIGH POINT.

The Local News From Our Neighbor Briefly Told.

TELEGRAM BUREAU

HIGH POINT, N. C., July 6.

Joe Turner, who with his family spent several months in High Point some time past, arrived here yesterday. Mr. and Mrs. Turner have resided at Albuquerque, New Mexico, for some time.

Mrs. H. C. Field left yesterday for a visit to her sister Mrs. W. Lee Horrell at Toccoa, Ga.

Mr. and Mrs. Chas. Jones, of Kinston, are visiting the family of J. E. Jones.

Mrs. T. P. North and her sister Miss Bessie Watson, of Greensboro, left on the southbound local last night for a visit to relatives and friends in Lexington.

We were shown two pictures, different views, of the Confederate monument here taken this week by Fred Jones, brother of the well known photographer, J. E. Jones, which our young friend much credit.

J. E. Cartland, the tailor of Greensboro, came down last night to see his family. He will move his family to Greensboro next week we regret to know.

Greensboro may count on a good crowd from here during gala week there. Almost every one you speak of the occasion express their intention of going. We believe our neighbor will make it a big success—the greatest the state has ever had.

B. E. Marable of Birmingham, Ala., son of our townsman Mr. D. T. Marable, is in the city.

Two cases were tried before Mayor Cox last night. A white man charged with being drunk was fined \$2.00 and costs, whereupon an appeal to higher court was taken. The other case was against two negro boys for fighting. They were turned loose without any fine being imposed.

We are informed that G. G. Burns and son will soon begin the erection of a house on their farm.

Miss Bessie May Smith, a pretty young lady of Winston, is visiting her cousin, Miss Mamie Smith, on East Washington street.

Threshing machines are busy in and around High Point this week. The wheat yield is the best in years.

A gentleman by the name of Cameron from Texas, who with his family recently located here says, "I have been all over the south and no where have I found as nice, healthy and business like town. I am carried away with High Point." Mr. Cameron is the inventor of a new process in making concrete and for five years has been selling county and state rights to manufacture it. He will open a manufacturing establishment here soon.

Miss Louise Henley, of Greensboro, is visiting Miss Maude Stamey on Steele street.

Miss Laella Raper, of Abbot's Creek, accompanied by Dr. Burton, of this city, left last night for Johns Hopkins Hospital, Baltimore, where the former goes for treatment.

Mrs. C. L. Candler, of Lexington, arrived last night for a visit to her sister, Mrs. W. G. Brown.

Dr. Davis will hold services in the Episcopal church tomorrow night at the usual hour. All invited.

We especially request all our readers to read the excellent statement of the National Bank of High Point in today's paper, which will be found in another column.

From reliable sources we learn that a majority of the hands employed by the Globe furniture Co. quit work this morning. The trouble is said to be on account of working hours.

DR. GEO. T. WINSTON ELECTED. Chosen President of the A. & M. College on Second Ballot.

Dr. Geo. T. Winston, president of the University of Texas, was elected president of the North Carolina Agricultural and Mechanical College last night by the board of trustees of the institution.

It took only two ballots for the board to make a selection, though five ballots were previously taken at the June meeting and without result.

Dr. Winston will accept the presidency of the institution, and he is expected to arrive in the state shortly. Dr. Winston has hosts of friends in the state who are delighted to welcome his return. It is their belief that the A. & M. College will soon rank with the first colleges of the land under his administration.

## Reception Friday Evening.

The Annie Patterson Missionary Society will give a reception to the young people of the church at the home of Miss Witherspoon, on Ashboro Street, Friday evening from 8:30 to 11:30. All the young people of Westminster church are cordially invited to attend.

## CRUSHED 'NEATH THE WHEELS

Young Brakeman Meets an Awful Death On the Southern's Yard.

ADOLPHUS WAGNER HIS MAME.

The Cruel Locomotive Passed Over His Body, Disemboweling Him Most Horribly.

A horrible accident, which cost Adolphus Wagner, a young white man, his life, occurred on the Southern Railway yard shortly after noon today.

The young man was a brakeman on a southbound fast freight, which had run in on a side track, west of the passenger depot. He had uncoupled the cars, to open the crossing of South Cedar street, and stepped upon the main track to signal the engineer. A passing shifting engine struck him and his body was horribly mangled beneath the wheels. The right leg was completely severed near the hip, which was badly bruised and torn, and the lower bowels were laid bare.

Drs. Michaux, Battle and Ledbetter were immediately summoned and as soon as a cot could be provided, the young man was taken to the baggage room in the passenger depot. He was then gasping in the throes of death, beyond the help of the physicians and they only administered opiates to make the end as peaceful as possible. At 1:10 o'clock the unfortunate brakeman breathed his last.

Young Wagner's home is near Benja, Rockingham county. He was 22 years old and had been employed on the Southern for about six months. Superintendent O'Brien ordered the remains prepared for burial and sent to the young man's parents tonight.

## OUR TOBACCO MARKET.

Now is the Time to Strike for Another Warehouse.

In the rush for the success of the firemen's tournament, please be a little careful and don't lose sight of the tobacco market. The tournament is a great thing and we welcome the fire boys to our fair city. But the tobacco interest in Greensboro is very much greater from the fact that it turns loose \$240,000.00 to \$300,000.00 annually, right here in our midst.

This amount is paid out right here in Greensboro every year for tobacco and for the handling of same. And all of this tobacco, with the exception of \$1,000.00 worth which is consumed in the town, is shipped here, there and everywhere to the four corners of the earth and brings into this city every year \$240,000.00 to \$300,000.00 of outside capital.

With practically no effort on the part of the town, but simply a natural growth, the market will sell this year between 200,000 and 210,000 pounds more tobacco than it did last year. With the proper effort on the part of the citizens of Greensboro the tobacco sales can be increased 50 per cent. in the next year. It is true that we are losing some good men which no one regrets more than the writer, but other good men are coming among us and while we are losing in one place we are gaining in another.

Some people are trying to make it appear that the market is on the decline, but the above facts and figures don't look that way to us.

The warehouse trust in Danville, Va., and the distrust which farmers have of such things will tend to greatly increase our sales next year.

There is ample room in Greensboro for another warehouse and with the combination of business which will go into effect in Danville next season there will be a good many excellent warehousemen out of a job that would be only too glad to invite their customers to Greensboro.

Another warehouse here can easily sell 1,500,000 pounds of tobacco the first year and increase their trade every year thereafter. The warehouse charges run about \$4.00 per 1,000 pounds, which would give a man \$6,000.00 gross profit and if he can't make something out of that he ought to quit.

The golden opportunity for a new set of live warehousemen, a profitable new warehouse and a large increase in sales on our market, is knocking at our doors right now. What will you do with it? If some one will furnish the warehouse we will find a live warehouseman to run it.

## A Card.

To My Customers, Friends and the Public: Having sold my business to Louis Baach, I solicit for him a continuance of your kind patronage.

Respectfully,  
L. B. Lindau.

Ladies are given a special invitation to call at Thacker & Brookmann's and look at a line of handsome lace curtains and tapestry portiers. They are also showing a good line of carpets, matings, art squares and rugs.

## RECEPTION TO DEWEY.

The Plans are Being Pushed Vigorously—Other Matters.

Special to The Telegram.

Washington, July 6.—Among the prominent arrivals in Washington Wednesday was Senator John L. McLaurin, of South Carolina. The senator arrived Wednesday morning and went at once to the Metropolitan Hotel. He is here on business connected with the war department, and other departments of the government in which the state and his constituents are interested. Senator McLaurin was seen at the Metropolitan Hotel Monday morning, but further than to state that everything is quiet politically in South Carolina, he refused to discuss for publication the present political situation, either from a national or state standpoint. The senator is accompanied to Washington by Mr. Henry T. Thompson who is also stopping at the Metropolitan Hotel.

Several Georgia representatives are also in the city. Representatives Adamson and Madox arrived Wednesday morning. The southern congressmen who are here are mostly interested in the coming appointments of officers, which it is expected will soon be announced by the president.

One of the Georgia representatives in speaking the other day of Colonel Bryan's visit to Georgia and the attitude of the Georgia democracy towards him, said that his visit would be conclusive of the sentiment felt in the state. He says that Bryan is meeting with a cordial reception in the south everywhere he goes, and he thinks the people of the section are for him just as earnestly as they were four years ago. The Georgia congressman says that Bryan has strengthened himself in the south by his opposition to trusts. So far as Georgia is concerned, he says there is no doubt but Bryan will get the solid delegation next year.

Plans for the public reception to Admiral Dewey when he shall visit Washington are being pushed vigorously. President McKinley has given assurances of his earnest co-operation with the movement and those having the reception in charge are bending their energies to make it a success. The movement will be a popular one, a committee of one hundred having been selected to arrange the details. It has virtually been decided that, with the consent of the president and the secretary of the navy, to present to Admiral Dewey in front of the capitol building the handsome sword recently voted to him by congress. The sword will be presented by Secretary Long in the presence of President McKinley, members of the cabinet and other distinguished officials and doubtless a large concourse of citizens. It has been proposed to have a fireworks display in the evening at monument lot, but this feature of the program has not yet been decided upon. The exercises will only take in one day.

Virginia people in Washington differ as to whether Governor Tyler will be drawn into the senatorial contest or not. Those who are supposed to be nearest the governor do not believe that he will actively seek the election or openly contest with Senator Martin, and they also express the belief that Senator Martin will be re-elected.

People here from Alabama do not believe that General Wheeler has any intention of leaving the army for the purpose of running for governor. It is said that the administration still has hopes of sending him to the Philippines.

Ex-Senator Pasco, of Florida, is in Washington for a few days. He is here on business of a personal nature, and is stopping at the Metropolitan hotel.

J. Cox Webb, of North Carolina, is in the city for a few days stopping at the Metropolitan hotel. James Webb is with him.

W. H. Wells, of the Southern, is in the city on business connected with the road. He is making his headquarters at the Metropolitan.

J. G. Covington, W. S. Lee and B. F. McGeehee are at the St. James. The two former are from Monroe, and the latter from Madison, North Carolina.

J. B. Edras and E. D. Stanford, of North Carolina, are at the National hotel.

## To The Public:

I have purchased the entire stock of L. B. Lindau, consisting of fancy and staple groceries and fine cigars, and will continue to do business at the old stand. I want to close out a number of articles and will give my customers the benefit of close prices in order to make room for new stock.

Louis Baach.

## Southsides, Attention!

Regular monthly meeting of Southside Hose Co. tonight at 8:30 o'clock sharp. Come out, all.

W. L. Guthrie, Sec.

For sale, two good building lots near Normal College, at low price for spot cash. Apply to J. L. Brookman, at Thacker & Brookmann's store.

## THE GREAT FLOOD IN TEXAS.

Over Two Hundred Persons Known To Be Drowned.

300 NEGROES IN DEADLY PERIL

Upon a Half-Acre Round of Dry Land—Twenty-Five Thousand Square Miles Flooded.

By Wire to THE TELEGRAM.

Galveston, Tex., July 6.—The floods in the Brazos river valley are proving more disastrous than was imagined. The situation grows hourly worse as the flood nears the gulf. It is now estimated that at least two hundred lives have already been lost. The damage done to cattle, horses, crops and railroad property will exceed ten millions. Thousands of persons have had narrow escapes from drowning.

Three hundred negroes are still in peril upon a half-acre round near Sealy. It is impossible to reach them until the flood abates.

The Southern Pacific, Santa Fe, Missouri, Kansas and Texas, Arkansas and Pacific railroads abandoned service west last night.

The rise at Richmond last night was over sixty-two feet. At some places the river has spread to a width of over fifteen miles. It is estimated that over twenty-five thousand square miles of territory are flooded by the Brazos river.

## ASSISTANCE ASKED.

Austin, Tex., July 6.—Governor Saers has sent the following request to Secretary Alger:

"Please immediately order by wire U. S. boats at Galveston to ascend the river, using launches, yaws, etc., rescue drowning people from the waters. Please also order commanding officer at San Antonio to place at my disposal for immediate distribution ten thousand rations. Will recommend to the legislature to refund to the United States their value when it next meets. Do not doubt it will promptly be done. Devastation is great. Immense loss of life probable, and prompt action very important."

## MORE VOLUNTEERS.

Uncle Sam Orders Ten More Regiments Enlisted.

By Wire to THE TELEGRAM.

Washington, July 6.—Orders were issued by the war department today to provide ten regiments of infantry U. S. Volunteers to be organized as follows: Twenty-sixth at Plattsburg barracks; Twenty-seventh at Camp Meade, Pa.; Twenty-ninth at Fort McPherson, Ga.; Thirtieth at Fort Sheridan, Ill.; Thirty-first, Fort Thomas, Kan.; Thirty-second, Fort Leavenworth, Kan.; Thirty-third, Fort Sam, Houston, Tex.; Thirty-fourth, Fort Logan, Cal.; Thirty-fifth, Van Cuner barracks, Wash.

## REVOLUTION STAVED OFF.

Political Crisis in Belgium Postponed At Least For The Present.

Brussels, July 4.—The political crisis if it has not been passed, has at least been staved off for the time, and Belgium is saved from revolution. Prime Minister Van der Peereboom and the government have yielded to the opposition and agreed to the appointment of a commission to examine the various projects of reform which have been tabled. This is a virtual withdrawal of the government's electoral bill.

The government's surrender, which is not only claimed as a great triumph for the liberals, but is received with great relief by the country generally, is believed to have been mainly due to the king, who, as far as his constitutional limits allowed, exerted pressure on the prime minister. The position now is a truce for a week or more, the ultimate issue depending on the agreement of the commission. Such agreement is in no wise assured. If an understanding is not reached trouble will break out again.

## Cut Price Shoe Sale.

In order to make room for our large fall stock which is now being manufactured and to keep our July business hustling we have this day marked down our men's fine shoes as follows: Men's \$2.50 shoes marked down to \$2.00; men's \$3.00 shoes marked down to \$2.50; men's \$3.50 shoes marked down to \$3.00. The above shoes are all made over our celebrated "Foot-Form" last—all sizes and widths. A small lot of men's, ladies' and children's broken sizes left which, if you find your size, you can buy at less than half price. Come before your size is sold. Carolina Shoe Co.

## Mr. Willis Returns.

His many friends will be glad to know that Edney Willis, who has held a position in Wilmington for some time, has returned to Greensboro and accepted a position in the office of Capt. H. L. Fry, superintendent of bridges and construction on the Southern.

## WILL SOON ORGANIZE.

The Greensboro Loan and Trust Company to Begin Business.

For some time it has been known that Greensboro was to have another banking establishment. It is now announced that on the 19th of July the stockholders of the Greensboro Loan and Trust Co. will meet in this city for the purpose of organizing by electing directors and officers of the institution. The capital stock will be \$100,000.

The Greensboro Loan and Trust Co. will do a general banking business, and in addition will negotiate mortgages, act as trustees of mortgages, and as administrator and executor of estates. It is composed of men of integrity and well known business qualifications. It will enjoy the confidence of the people from the start. A banking house has not yet been decided on definitely, but will be soon. The new bank will probably begin business some time in August.

## HARD WOOD MANUFACTORY.

New York Plan to Manufacture Spokes Handles Etc. Here.

Mr. C. B. Saxton, of Buffalo, N. Y., who has been in the city prospecting for several days, has decided to locate and engage in the manufacture of hard wood. Plans for the factory building which will be located near the water works, inside the city limits, have already been drawn and building will soon be begun. The structure will be one story, 88 feet 8 inches by 31 feet. Mr. Saxton will manufacture spokes, handles and other hard wood articles. The machinery will be placed and work begun as soon as possible after the completion of the building. Score another factory.

## West End Lawn Party.

The West End baseball club will give a lawn party on the 14th inst., at some desirable lawn on West Market street to raise funds to buy uniforms and sundries. The boys have been assured of the services of a number of ladies and the party can but be a success. The West End club has been organized for three years and has never lost a game.

## A WISE CHOICE.

It gives us much pleasure that Dr. Geo. T. Winston, president of the University of Texas, has been elected to the presidency of the Agricultural and Mechanical College at Raleigh, N. C.

No wiser choice could have been made. Dr. Winston, by his broad mind and his most liberal ideas, will reflect the greatest honor and dignity to the institution, while his force of character and pride of state must be a power for imparting the greatest degree of usefulness to this college. Nor is he less fitted for the task of guiding a technical college than any other man who could have been named. No one takes a warmer interest in, nor is informed more widely upon, the industrial and material development of our state, as well as the educational development. Mr. A. B. Kimball, a learned gentleman of high character and sound views, of this city, who was Dr. Winston's former private secretary, in an elaborate communication to the Charlotte Observer yesterday, advocating the election of Dr. Winston, said:

I have had ample opportunity to know Dr. Winston. Having aided him for two years in conducting his correspondence, when he was president of the University, I learned, as I could not otherwise have done, the great resourcefulness of the man, and his great ambition to be helpful to all young men of worth and ambition. It is a remarkable fact that those who know Dr. Winston best are his warmest admirers and strongest supporters. I am not a teacher, but my contact with this great educator has given me a profound respect for the teaching profession. Moreover, I feel that every citizen in North Carolina ought to interest himself in every department of education, and for this reason I am moved to speak of Dr. Winston.

But I wish to refer to him as the best choice that can be made for the presidency of the Agricultural and Mechanical College. Why?

It is well known that for years prior to Dr. Winston's departure from the State the ideas and problems that engaged his best thought were along economic and industrial lines, and with special reference to their bearing upon the educational, industrial and material development of North Carolina. It is doubtful if there is a man within the State more thoroughly informed as to North Carolina's educational manufacturing and industrial showing to-day, than he. Countless times I have heard him point out with what seemed almost an excess of repetition and stress, that North Carolina's development must be along industrial lines; that already the awakening in that direction was unmistakable, and the ebb of the tide at hand; that no past age had made such imperative demands for trained minds in industrial fields.

A born educator, with an energy and compass of intellect that have left few departments of knowledge unexplored, Dr. Winston is moreover an eminently practical man. An instance of this wisdom and success with which he conducted the affairs of the University through a period of five years, and with what results in widening its usefulness I need not relate. Many a young man in North Carolina now growing into useful citizenship, would, without timely encouragement at the hands of Dr. Winston, have been doomed to a life of mediocrity and inefficiency.

It is such a dedication as this to the idea of education, such belief that it and material progress are related as cause and effect that would be among his distinguishing characteristics as the head of the Agricultural and Mechanical College, and no worthy young man of talent and character would look to its doors in vain.

The Telegram feels sure that the choice of Dr. Winston was a most happy one, and gives its voice to the general cry of welcome to the powerful addition to the Old North State's intellectual cluster, and wishes the Agricultural and Mechanical College the greatest success under his guidance.

The following from the Charlotte Observer is very interesting, as it will involve the constitutionality of the Craig insurance law:

David E. Fleming, of Iredell, has instituted suit in the superior court of

Iredell county against the Southern Railway company for \$20,000 personal damages. Capt. Geo. F. Bason, of this city, attorney for the Southern, will file a petition for the removal of the case to the United States courts and believes that Judge Ewart will grant this petition. Thus the Craig law will get before the courts. Capt. Bason has no doubt whatever of the result. He says there is a long line of decisions of the supreme court of the United States, beginning with Wallace, 23, in which it is held that a suit involving more than \$2,000 between citizens of different states, is removable to the United States courts.

At a banquet at Paris by the American chamber of commerce, Ex-president Benjamin Harrison was the guest of honor. In his response to the toast drunk for his health, the ex-president spoke at length, and touching upon the problem the American government is grappling with, said:

"We have incurred responsibilities in the Philippines and we shall not fail to discharge them at any cost. We have assumed responsibilities toward a peaceable people there toward Spain and toward the world. We must establish order as a preliminary to the consideration of any questions as to the ultimate destiny and disposition of the archipelago."

## THIRTEEN BODIES RECOVERED

The Water Sweeping Through Brookshire—Eight Hundred Lives in Peril

St. Louis, July 5.—A special to the Post-Dispatch from Dallas, Tex., says: "At 1:45 p. m. today Deputy Sheriff Swearingen, of Austin county, made the following statement over the long distance telephone at Sealey: 'Relief has not reached the flood victims in this section. Thirteen dead bodies have been recovered near the town of Brookshire, thirteen miles from here. Forty-five persons above Sealey are reported missing and given up for dead. Seven were drowned today in a boat seven miles below Sealey. About 400 persons are isolated on a small piece of land in the Brazos bottoms three miles from Brookshire. Several hundred more are surrounded at San Phillips three miles from Sealey. Unless relief can soon reach these two places the 800 lives will probably be lost. Many will die as it is from hunger, exposure and exhaustion. 'The water today is running through the town of Brookshire, something never known before. The 65 lives reported lost here today were in a radius of twenty miles north and south of Sealey. We are completely isolated at Sealey, but this town is not in danger. We cannot estimate the situation beyond the limits I mention. The whole face of the country here is a sea. The channel of the Brazos river here has shifted about three miles and the water is 15 miles wide. Logs, houses, lumber and railroad material, merchandise, live stock and other floating objects make it worth the life of rescuers to go to the relief of the endangered people, the most of whom are colored people. The railroads are destroyed for miles. An imminent washout occurred on the Santa Fe, south of Sealey, this morning. This cuts off our last strand of railroad communication. The Missouri, Kansas & Texas; the Gulf, Colorado & Santa Fe and the Southern Pacific are all completely stopped. The weather is cloudy this afternoon and more rain is feared.'"

Base Ball Yesterday.

## Bishop Newman Dead.

Saratoga, N. Y., July 5.—Bishop J. P. Newman, of the Methodist Episcopal church, of San Francisco, died at 2:30 o'clock this afternoon. Bishop Newman has been in failing health for a year past, but it was only a week ago that his condition really alarmed his friends. Since July 3 he had been sinking rapidly. The immediate cause of death was pneumonia and myelitis.

## How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of the vital organs. If the liver is inactive you have a bilious look; if your stomach is disordered you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good alternative and tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at C. E. Holton's drug store. 50 cents per bottle.

## Making a Football.

A football requires a vast amount of work before it is ready for kicking over the sidion. The balls are covered with cowhide which must have remained in the tan pits a year or more. The hides are from 7 to 8 feet long, 6 to 7 feet wide and before splitting weigh from 25 to 30 pounds. The skin has to be split into two layers. The part to be used is soaked for a few days in a cleansing preparation. It is "sleeked" out to shape. The stripes are stitched, always by hand. The bladder is or should be of the finest Para rubber, and undergoes perhaps more processes than the cowhide. It is necessary to the football's pneumatic tires are to the cycle; in fact, even more so, since no effective substitute for an air bladder has yet been discovered. The bladder is of immense strength, and is fitted with a nozzle through which the air is injected. These bladders are an expensive item and represent a considerable portion of the cost of manufacture. The bladder is inserted through the unslit slit, and the next process is to blow it up. The rubber nozzle fits over a metal tube on the machine. A few turns of the hand wheel and the ball is inflated. It is now laced up and handed over to the shaper, who puts down any unevenness in the seams.

## The Truthful Marksman.

An extraordinary shooting adventure is recorded by A. L. Butler, of the State museum, Selma, Ala. One day in last July a Malay woodcutter went into the jungle to cut fuel, taking with him an old single barreled, muzzle loading gun loaded with the rather unscientific charge of a bullet and four buckshot. Moving quietly through the jungle, he suddenly came upon a tiger feeding on the carcass of a sambar, and with touching confidence in his weapon fired at a distance of 40 paces. The tiger rolled over, and when the Malay cautiously approached he found not one dead tiger, but two, the second having been hidden from the sportsman, though only a few feet distant from the animal he fired at.

Mr. Butler, who made a post mortem examination of the tigers after they had been skinned, found that in each case a single buckshot had gone to the heart. One had also an insignificant wound on the head from another pellet. "For a really appalling feat," as Mr. Butler says, this achievement of the Malay woodcutter will be hard to beat. It certainly is not a performance any sane white man will try to parallel, much less to eclipse.

## Old Love and New Repartee.

People are smiling at the little passage at arms which took place between two young women at a luncheon the other day. One of the women is a beautiful blond, a bride, and she comes from the south. She met the other woman first at the hotel and luncheon, and shaking hands in her characteristic, cordial way, said:

"I'm so glad to meet you! You have afforded me so much amusement."

"Amusement?" said the other. "Oh, yes!" went on the bride. "I've been through my husband's desk, and I've read all his old love letters. I found several very warm and affectionate letters from you, and I enjoyed reading them ever so much."

"I'm so glad you enjoyed them," purred the other. "But do come to see me very soon. I have the answers to all those letters, and you might like to read them. Mr. X's letters are ever so much warmer and more affectionate than those I wrote him. I know you'll enjoy reading them ever so much more than you did mine."—New York World.

## A Natural Mistake.

"I went to Paris," says an Englishman, "staying at the Hotel de Lille et d'Albion. Never having been before, I lost my way and could not find my hotel again, because I neither spoke nor understood French. Thinking some of the people I met might understand written English, I went into a stationer's shop and bought a large card, on which I wrote, 'Please tell me the way to the Hotel de Lille et d'Albion.'"

"Again I sallied out, showing my card to several, but still to no purpose. At last a man read it and silently beckoned me to follow him, which I did as silently for a mile or more. Then he pointed, still silently, to the sign of the hotel, and when I saw it I broke the silence by exclaiming, 'Thank you.'"

"What," he replied in amazement, "are you an Englishman? So am I, but I took you to be deaf and dumb."

## The Power of Money.

"What," said the visitor to the village of his childhood, "what's become of the one boy I hated—Willie Hawker, the sneak? In prison, no doubt. He bore that fate on his face."

"Hush," said the old inhabitant. "He is now Mr. Hawker, the famous millionaire."

"What!" cried the visitor. "My dear schoolfellow a millionaire? I must call upon him and revive old friendship."

A Wise Course.  
Blimb—A wise, always make it a rule to be prepared for the worst.

Hanby—If I were in your place, I'd do the same thing. There's no telling when that stupid office boy of yours may go to sleep and let some collector crowd his way in.—Chicago News.

What is bought is cheaper than a gift.—Portuguese Proverb.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. Howard Gardner.

W. M. Gallagher, of Bryan, Pa., says: "For forty years I have tried various good medicines. One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles, coughs, colds, croup, whooping-cough, is gripe and pneumonia. Howard Gardner.

## An Epidemic of Diarrhoea.

Mr. A. Saunders, writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by C. E. Holton, druggist.

"Are you willing to work for your dinner?" asked the woman. "Dat depends on what you wants done," replied the tramp. "I want you to beat that carpet hanging on the line over there," she said. "Lady," answered the wanderer, "I'm poor and I'm hungry, but I'm honest, an' I'm not gold' to begin beatin' me way through de world at dis late day."—Chicago News

How many lives we in one, and how much less than one, in all—Alice Cary.

## INDIGESTION

Cured by Johnson's Dyspepsia Cure  
"I suffered over two years with Indigestion and Nervous Dyspepsia, unable to eat or sleep. I tried several physicians and different remedies, but they only helped me for a short time. A friend advised me to take Johnson's Dyspepsia Cure. I have taken three boxes, and am now feeling better than I have for two years. Have a good appetite, sleep well and have none of the symptoms of Indigestion or Dyspepsia. I have gained ten pounds in weight within a couple of months. I am taking pleasure in recommending Johnson's Dyspepsia Cure wherever I can, and several of my friends are taking it with marked results."—A. Arnold, Conn. Large Box 50 cts. by mail, or five agent stamps. Made at THE JOHNSON LABORATORIES, INC., PHILADELPHIA.

Howard Gardner, Druggist, Cor. Opp Postoffice

removed. But it is not so with dress. With pleasure and delight you note the practical change from almost winter-weight garments to our airy, comfortable and well-fitting crash suits.

Cut to fit—made to wear. Will not shrink in washing, and while they cost you more than the ordinary kind, still our price for the best is only \$5.50.

Rankin, Chisholm, Stroud & Rees...

Our store closes promptly every evening at 7 o'clock except Saturday

## BRIEF LOCAL MATTERS.

Crash suits at Matthews'. See change of ad today.

Wilmington excursion Tuesday of next week. Get ready and go.

Mr. W. F. Bogart advertises two six room houses for rent today. See penny column.

Crash suits are in demand. Will H. Matthews & Co. talk about them in their ad today.

Miss Minnie Blackburn and Master Robert Scott are spending a few days at Guilford College.

Alderman, the photographer, has a change of ad today. He is talking about hand cameras.

The Mother Goose reception has been postponed on account of the sudden illness of one of the children.

Mrs. Frank DeBold and Mrs. G. E. Pickard, of Florida, are visiting their aunt, Mrs. B. N. Smith, on North Davis street.

Remember next Tuesday's the day for the grand excursion to Wilmington. Three days. Round trip \$2.00. Don't miss it.

Any one wishing to act as marshals in the grand parade during gala week will please hand their names to W. J. Blackburn at once.

Senator L. McLaurin, of South Carolina, spent several hours in the city today, on his way to his summer home near Mt. Airy.

Mrs. Clarence R. Brown was called to her home in Rochester, N. Y., this morning by the death of her brother, Mr. Louis Philippe Meyer. Mrs. Brown left on the noon train.

B. E. Jones, reporter for Guilford Lodge No. 1777, Knights of Honor, this morning received a benefit certificate for \$2,000 for Mrs. Henrietta G. Cartland, relict of the late H. H. Cartland.

L. M. Michaux, of Goldsboro, passed through the city last evening en route to Ashville to attend the meeting of the Southern Wholesale Grocers' Association. Mr. William Simpson went from here.

## A Prosperous Business.

The Elite Confectionery Company's store has been improved in appearance from time to time until it is now one of the neatest and most attractive, as well as one of the most popular, places in the city. Shelves have been put up on both sides of the salesroom and well selected line of fancy groceries was yesterday added to the stock. Manager Edgerton tells us that his restaurant and ice cream parlor are doing splendid business. Early in the fall the Elite company will start a candy factory. The machinery is being purchased, to manufacture candy on a large scale. A representative will be put on the road to sell the product by wholesale.

## Army Recruits.

The following named gentlemen have enlisted at the recruiting office here for service in the army:

For the Philippines: Rev. Major J. Carrio, of Alleghany county; Tourney F. Boroughs, Harpers X Roads;

For Porto Rico: Joseph W. Talant, Glen Alpine; Valine O. Leonard and Virgil E. Bodenhamer, Jamestown.

For heavy artillery in Cuba: Luther E. Wilson, Greensboro.

These men will leave Friday for San Francisco, New York and Baltimore.

## Notice.

Regular monthly meeting of Steam Fire Engine Company No. 1 tonight at 8 o'clock. Every member should be present.

## Card of Thanks.

The family and relatives gratefully recognize the abundant and continued kindness of the many friends during the sickness and death of Mrs. Lou Weatherly.

Greensboro, July 6th, 1899.

## Perfection is Our Mot to.

Equipped with the latest improved machinery. We are prepared not only to take the best of care of your clothes, but will return them to you done in the best style of the art.

Gate City Steam Laundry, No. 114 Fayetteville street. Phone 144.

Men who want to keep cool these hot days should get fitted out with some of our light weight Balbriggan Summer Underwear. Shirts and Drawers, all sizes, 25, 35, and 50 cents each, and you'll be surprised to find how good they are for such small prices. Thacker & Brockmann.

## GREENSBORO'S FACTORIES.

Two More of Them That Are Rushed With Orders.

G. T. Glascock & Son, founders, are taxed to their utmost capacity to keep up with orders. For the past three weeks it has been necessary for them to cast every day in order to turn out the extra amount of work and during that time many a ton of iron has been melted and cast into various shapes. Among their larger orders at present is one for three car loads of cotton mill casting for the new Revolution Mills of this city, and another from a South Carolina firm for two car loads of machinery casting. May they keep their present pace.

The Greensboro Furniture Company is testing its capacity at present, filling an order from Maxwell & Maxwell for 12 car loads of furniture of different grades. The entire order will be shipped by the same train to Maxwell & Maxwell's stores at Charlotte, Knoxville and Augusta.

## Beat Again.

The Greensboro baseball team returned last night from Statesville where they played two games, on the 4th and 5th respectively. Statesville won the first game by a score of 9 to 7, and the second by 11 to 2. The boys say they were nicely treated and enjoyed their trip immensely. The Statesville team will probably come to Greensboro during the tournament.

## Hear the Verdict!

For you are interested if you wish to wear perfectly laundered linens: "The Gate City Laundry is second to none in the style and quality of its work."
